

***Bleank***  
High-End interactive contents

## About

Bleank is an independent design studio focusing on high-end creative software development. Bleank acts as a contractor for professionals and also produces its own applications for the consumer.

Our technical and artistic expertise allows us to concentrate on offering simple and user-friendly interface so that the technology disappears and leaves place to magic and dreams.

# Technology

Bleank develops and use its own high-end display technology to meet the most demanding communication needs.

Our real-time 3D technology takes full advantage of the display hardware's specifications (LED screens, Full HD LCD, interactive tables, ...).

**ADVANCED LIGHTNING**  
Scattering & HDRI

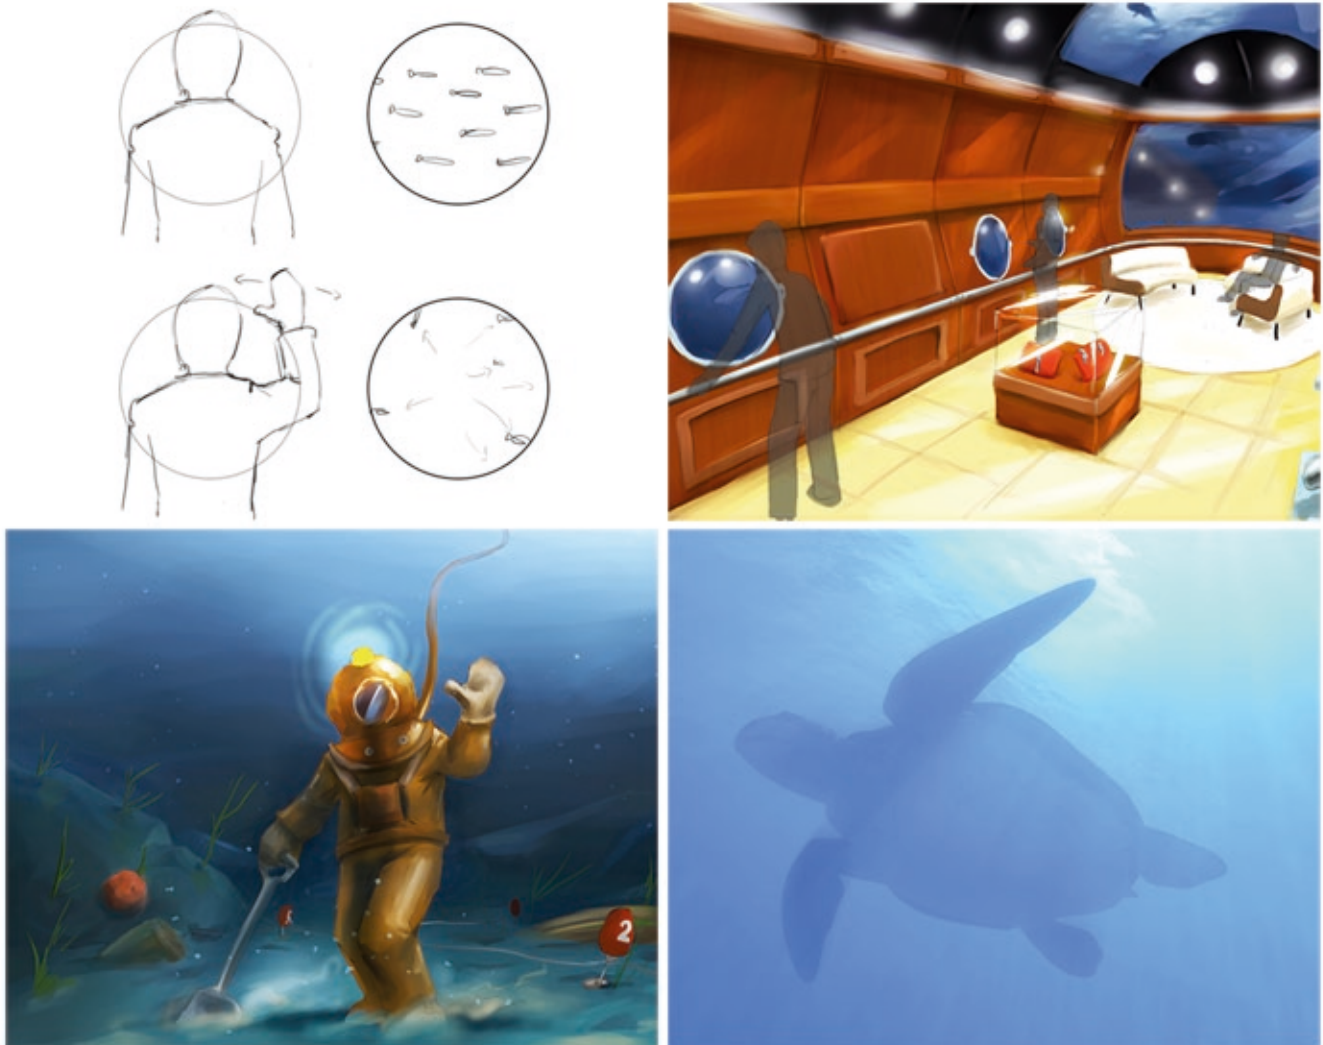

**POST PROCESS**  
Depth of field & Flare

**CUSTOM SHADERS**  
Glass, metal, velvet, ...

# Creation

Bleank's original concepts for a Baselworld booth

Bleank's expertise and creations meet your objectives and bring you an extremely attractive and appealing product.

We offer original concepts and digital creations for professional exhibitions, cultural or artistic events as well as your company's office.

# Attraction

Bleank entirely designs and develops the behaviors and interactive elements that connect the content to the users, according to the feeling you want to convey.

Our policy is to offer a magic moment and a user friendly experience for everyone in contact with our products.
